

DAVID GILBERT

OFFICE	IDC 345
EMAIL	Email dwgilbert@pipeline.sbcc.edu or use the email in Canvas. Email is the best way to contact me.
OFFICE HOURS	TBA
COURSE LOGIN	Your course is located in Canvas with online quizzes and homework located in Hawkes. Access Canvas through a link in Pipeline. Access Hawkes using the code bundled with the text in the bookstore or purchased online.
PHONE	(805) 965-0581 extension 2208

REQUIRED TEXT/SOFTWARE/HARDWARE (The first two bulleted items should be bundled in the bookstore)

If you choose not to have a hard copy text, you may purchase the Hawkes Access Code online from www.Hawkeslearning.com. This code will give you access to the Etext. I have more text info in Canvas and online at www.mathgilbert.org related to the text purchase options.

- *Beginning Statistics*, 3rd ed., by Warren, Denley, and Atchley.
- *A Hawkes Access Code*. (This should have been packaged with the text). This may also be purchased online at <http://www.hawkeslearning.com>.
- TI84 Graphing calculator capable of performing 2 variable statistics. TI84 is best but others may work.
- A reliable computer is mandatory. Computer problems, internet problems, different time zones, or the lack of a computer will not excuse you from meeting course deadlines.

WARNINGS

Depending on your computer settings, you may need to close any POPUP BLOCKERS that you have installed. Most files will be in PDF form and videos will be hosted in YouTube. I have heard of issues with Firefox so please try a different browser such as Google Chrome.

STUDENT LEARNING OUTCOMES (SLOS)

Upon completion of the course, the successful student will be able to do the following:

1. Use statistical core terminology accurately.
2. Organize data using both numerical and graphical methods.
3. Use measures of central tendency and dispersion to summarize a data set.
4. Calculate probabilities of events explained by the normal and the standard normal distribution.
5. Estimate population parameters using confidence intervals.
6. Carry out a complete test of hypothesis about population parameters.

CONTACT/EMAIL

The best way to reach me is through email. You can usually expect a response from me within 24 hours during the week, or by Monday if you email me over the weekend. I most likely will not check email over the weekend. You will not get a response if...

- 1) Your email does not follow proper etiquette or if you are not courteous.
- 2) You ask me questions on which answers can be found in this syllabus.
- 3) You missed class & you expect me to tell you everything you missed in email.
- 4) You ask me for a grade other than the one YOU earned at the end of the semester. Grades are not assigned based on requests!

**WHEN USING CAMPUS PIPELINE, PLEASE PLACE THE COURSE CRN IN THE SUBJECT LINE.
EMAILS ARE FILTERED USING THE CRN.**

ATTENDANCE

There are no on campus lectures however you must log into the Canvas portion of the course on a regular basis. If you are not logging in to Canvas, I reserve the right to drop you. There is no mandatory on campus attendance due to Covid however the exams will most likely take place as take home exams while using Zoom or some other software for proctoring. Exams and their format are still a work in progress so expect some changes here.

MATH TUTORIAL LAB

The Math Tutorial/Computer Lab is open for student in an online format since the campus is closed. The math lab is free to all students enrolled in SBCC math courses. For more information, please visit <http://www.sbcc.edu/mathematics/mathlab/>

HOMEWORK

Statistics is not a spectator sport. I am a strong believer that statistics can only be learned by doing. There are two forms of homework. There are homework assignments assigned in the text and there are online assignments assigned in Hawkes. It is suggested that you complete both forms of the homework however only the online homework (called "Certifies") in Hawkes will be a part of your grade. It is strongly suggested that you complete each and every assignment. Homework assigned from the text will not be collected. However, the text homework problems, book examples, the reading that you do from your text, and any online lectures that are posted in Canvas are the best sources of material to study when preparing for regular exams or the final. The homework problems assigned from the text are the best problems to study when preparing for exams or the final. The homework problems found in Hawkes are the best problems to study from when preparing for the quizzes. Your 8 lowest or missed homework scores in Hawkes will be dropped from your grade at the end of the semester.

LAB ASSIGNMENTS

There are three required lab assignments and possibly a 4th offered for extra credit near the end. They are described in further detail on the course homepage in Canvas and in the calendar section of your course as they become available. Lab assignments are due as shown on the semester schedule. The software needed for the labs is called SPSS. The math computer labs have the software installed and you should access this software from off campus using a remote login. More information is provided in the lab section in Canvas. ***There is no lab software that you need to purchase!*** If you wish to use some other software such as Excel, Minitab, etc, please check with me first. You are required to submit your labs in Canvas as a PDF file. See below.

Lab Submission: You are required to submit your lab in Canvas as a PDF file. No other form will be accepted. I have information in Canvas related to converting files to PDF's. You will upload your completed lab in the assignment section of Canvas. It must be a PDF file.

QUIZZES

See the course schedule (in Canvas) for quizzes, the topics they cover, and their online availability. Quizzes are mandatory and will be taken online using Hawkes. Hawkes actually calls the quizzes "WebTests". In Hawkes, look in the WebTest section for quizzes. You must take the quiz within the time frame allowed. If missed, they cannot be made up. The best preparation for a quiz is to do the assigned homework and read the text. The homework available in Hawkes is most similar to quiz questions. All quizzes will open at 6:00am on Monday morning (Tuesday if Monday is a scheduled holiday). All quizzes opened during the week will close at 11:59 pm Pacific Standard Time on the following Sunday evening (Unless an extension is noted on the semester schedule). Do not wait until the last minute to take them. You will get two attempts for each quiz as long as both attempts are completed by the deadline. Since you have all week, I expect that you will plan ahead in case you are away for the weekend. **NO MAKE UPS!** Your 5 lowest or missed quiz scores in Hawkes will be dropped at the end of the semester.

FORUMS/DISCUSSIONS/ANNOUNCEMENTS

I will be posting discussions and or announcements in Canvas as they fit in with the topics of the course. They will count for a portion of your grade. I expect students to respond and discuss when appropriate and read any announcements posted. They will vary in topic. In addition to the discussions that I might post, read the discussions posted by other students to gain a better understanding of the course. You may post your own discussions at any time. Students in the past have used the discussion page to better understand homework problems assigned from the text. In most cases I will not be the first to respond since I encourage and highly suggest that students become active in the conversation created through discussions. Before you send me an email asking for help, search for help by posting your questions on the discussion page and or check to see if there is already a thread of discussions related to your

question. I will not respond immediately since I often wait and encourage other students to respond first before I respond. I believe that students can learn by helping other students.

Be aware that not all student responses are correct since we are in a learning environment. I will do my best to add my voice to discussions in a timely manner before any discussion threads get too far off track.

EXAMS

A review sheet will be posted for each exam in Canvas approximately 3-4 days prior to the exam. There will be three exams and one cumulative final exam. Exams will be similar to lecture (Power Point) material, homework problems (both text and online), quiz problems, and the reading from the text. The exams are mandatory, cannot be made up, and cannot be taken at a later time. If you have special circumstances when taking exams, you need to let me know in advance. Problems found on any take home portion of the exams will be most similar to text problems. Any online portion of an exam will be most similar to Hawkes online quizzes and homework.

EXAMS NEED TO BE TAKEN ON THE SCHEDULED DAY AND AT THEIR SCHEDULED TIME. YOU MAY NOT TAKE AN EXAM LATE FOR ANY REASON. DON'T ASK. If you miss the final exam, you will receive an F or FW for the course. No exceptions.

I do not drop exams! All exams are included in your grade. However, if you take all three exams, and your final exam grade is greater than 70%, I will replace your lowest exam score with your final exam score. If you miss an exam, and your final is greater than 70%, I will replace the zero with 80% of your final exam score. If you score less than 70% on the final, there will be no replacement of a missed or lower exam score.

SPECIAL CIRCUMSTANCES

Disabled Student Programs and Services (DSPS) coordinates all academic accommodations for students with documented disabilities at Santa Barbara City College. If you have, or think you might have, a disability that impacts your educational experience in this class please contact DSPS to determine your eligibility for accommodations. DSPS is located in the Student Services (SS) Building, Room 162. Their phone number is 805-730-4164.

If you are already registered with DSPS please submit your accommodation requests via the 'DSPS Online Services Student Portal' as soon as possible. Please complete this process in a timely manner to allow adequate time to provide accommodation.

EXTRA CREDIT

I don't have plans to give any other than possibly a question or two at the end of each exam and possibly a 4th lab at the end of the semester. Plan to earn the grade you want without relying on extra credit. There is plenty of regular credit available. **I am 100% certain that extra credit does not replace what you don't know!**

EXAM DATES, TIMES, AND ROOMS

Subject to change and notice will be given by email. Changes are likely.

	Date	Time/Window	Material Covered
Exam #1	Thurs., Sept 24, 2020	TBA	See Review Sheet in Canvas
Exam #2	Thurs., Oct 22, 2020	TBA	See Review Sheet in Canvas
Exam #3	Mon., Nov 23, 2020	TBA	See Review Sheet in Canvas
Final Exam	Mon., Dec 7, 2020	TBA	Cumulative and See Review Sheet in Canvas

GRADING CRITERIA

Your final course grade will be calculated based on three exams worth 16% each
Quizzes worth 14%
Homework worth 8%
Labs worth 6%
Discussions worth 4%
Cumulative final worth 20%.

FINAL COURSE GRADE SCALE

90-100% A	78-79%.....C+	60-67%.....D
88-89%.....B+	70-77%.....C	Below 60%.... F if the course is completed
80-87%.....B	68-69%.....D+	Below 60%.....FW if the course is not completed

Grades of A+, A- and B- will be used as I see fit.
A failing grade will be assigned if the final is not taken.

**I reserve the right to change this syllabus at any time. You will be given notice of any changes by way of email.
Due to our current situation, changes are likely.**
